DIE BLOMPLANTE VAN
AFRIKA

Hierdie publikasie word uitgegee as 'n geïllustreerde reeks, baie na die aard van Curtis se "Botanical Magazine". Die doel van die werk is om die skoonheid en variasie van vorm van die flora van Afrika aan die leser bekend te stel, om belangstelling in die studie en kweek van die inheemse plante op te wek, en om plantkunde in die algemeen te bevorder.

Die meeste van die illustrasies word deur kunstenaars van die Navorsingsinstituut vir Plantkunde gemaak, dog die redakteur verwelkom gesikte bydraes van 'n wetenskaplike en kunsstandaard afkomstig van verwante inrigtings.

Onder huidige omstandighede word twee dele van die werk gelyktydig gepubliseer, maar met onregelmatige tussenpose; elke deel bevat tien kleurplate. Intekengeld bedra R1,50 per deel: Vier dele per band. Vanaf band 27 is die prys per band in linne gebind R10; in morocco-leer gebind R14.

Verkrybaar van die Direkteur, Afdeling Landbou-inligting, Privaatsak X144, Pretoria.

THE FLOWERING PLANTS OF
AFRICA

This publication is issued as an illustrated serial, much on the same lines as Curtis's Botanical Magazine, and for imitating which no apology need be tendered.

The desire and object of the promoters of the publication will be achieved if it stimulates further interest in the study and cultivation of our indigenous plants.

The illustrations are prepared mainly by the artists at the Botanical Research Institute, and the Editor is pleased to receive living plants of general interest or of economic value for illustration.

Each part contains 10 plates and costs R1,50 per part. Two, three or four parts may be published annually, depending on the availability of illustrations. A volume consists of four parts. From Volume 27, the price per volume is: Cloth binding, R10; morocco binding, R14.

Obtainable from the Director, Division of Agricultural Information, Private Bag X144, Pretoria.

The reaction of the South African business sector to the trend of inflation and the possibility of an economic recession in common with other Western countries, resulted in a marked decline in the volume of capital goods being financed during the period under review. The situation was further affected by restrictions in funds available from banks and other sources of finance, causing industrialists in particular to limit expansion in an endeavour to preserve liquidity.

The property market experienced a decline and township land sales in particular were seriously affected by the inability of building societies to maintain a normal flow of mortgage bond finance to prospective homeowners, with the resultant adverse effect on the activities of the Township Companies within your Group.

The Group's trading policy has been influenced by the changing nature of market conditions and the Board has adopted a conservative policy of preserving liquidity in order to provide for future commitments, and to cope with the effects of possible adverse trends. This policy has affected the profit results for the past six months, and it is considered prudent to retain all earnings for the period.

Despite the general trend, however, the demand for housing and land continues to be good in the Newcastle area where our development programme is nearing completion. The marketing of stands and houses will commence shortly and the Group should benefit substantially as a result.

Possible changes in home ownership subsidies and in the availability of mortgage bond finance should stimulate the housing property market, and your Group is hopeful of reporting a much improved situation at the end of the current financial year.
