No. 66 Workmen's Compensation Act, 1941: Tariff of Fees for Medical Aid 1

Government Notice

**MINISTRY OF LABOUR AND
MANPOWER DEVELOPMENT**

No. 66

1993

**WORKMEN'S COMPENSATION ACT, 1941:
TARIFF OF FEES FOR MEDICAL AID**

Under section 79 of the Workmen's Compensation Act, 1941 (Act 30 of 1941) I hereby with effect from 23 July 1993 -

- (a) prescribe the Tariff of Fees for Medical Aid and the general rules and general modifiers applicable thereto, as set out in the Schedule; and
- (b) repeal Government Notice 28 of 1991.

The fees as set out in the Schedule are applicable in respect of payments authorized irrespective of the date of the accident in respect of which payments are made.

W.F. GROBLER
WORKMEN'S COMPENSATION
COMMISSIONER

Windhoek, 8 July 1993.

Notes

THE WORKMAN AND THE DOCTOR

- (i) The workman is permitted to choose freely his or her own doctor, and no interference with this privilege is permitted as long as it is exercised reasonably and without prejudice to the workman himself or herself or the Accident Fund. The only exceptions to this rule are those cases where employers, with the Commissioner's approval, provide their own medical aid facilities *in toto*, i.e including hospital, nursing and other services - section 81 of the Workmen's Compensation Act (Act 30 of 1941).

In terms of section 60 of the said Act either the Commissioner or an employer may send the injured workman to another doctor chosen by him or her (Commissioner or employer) for a special examination and report. Special fees are payable for this service.

In the event of a change of doctors attending a case, the first doctor in attendance will, except where the case is handed over to a specialist, be regarded as the principal, and payment will normally be made to him or her. To avoid disputes, doctors should refrain from treating a case already under treatment without first discussing it with the first doctor. As a general rule, changes of doctor are not favoured, unless there are sufficient reasons therefore.

If an injured workman is in need of emergency treatment, the doctor should act in the same manner as he or she would to any patient who needs his or her urgent help. He or she should not, however, ask the Commissioner to authorise such treatment before the claim has been admitted as falling within the scope of the Act. It should be remembered that a workman seeks medical advice at his or her own risk. If, therefore, a workman represents to his or her doctor that he or she is a Workmen's Compensation Act case and yet fails to claim the benefits of the Act, leaving the Workmen's Compensation Commissioner, or his or her employer, in ignorance of any possible grounds for a claim, the insurance fund concerned cannot accept any responsibility for any medical expenses incurred. In such circumstances the workman would be in the same position as any other member of the public as regards payment of his or her medical expenses.

- (ii) Except where otherwise stated the fees charged for services of a general practitioner shall be two-

thirds of the fees of the specialist for the same service.

- (iii) Monetary values have been rounded off to the nearest 10 cents on the basis that monetary values ending with a 1 to 4 cents value must be rounded off to the lower zero, and that 5 to 9 cents must be rounded off to the upper zero.
- (iv) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal after-care and no fees may be levied. Where no procedure or operation was carried out fees may be charged for hospital visits according to item 0110 for the first two weeks. Subsequent to the first two weeks of hospitalisation fees may be charged according to item 0111 for every week thereafter. Item 0109 should be used for a hospitalisation period of less than one week.

GENERAL RULES GOVERNING THE TARIFF

A. Consultation: Definitions

- (i) First consultation: Refers to a situation where a medical practitioner personally takes down a patient's medical history, performs an appropriate clinical examination and, if indicated, prescribes or administers treatment.
- (ii) Subsequent consultation: Refers to a voluntarily scheduled consultation performed for the same condition within four months after the first consultation (although the symptoms or complaints may differ from those presented during the first consultation). It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.
- (iii) Prolonged consultation: Refers to a consultation with a duration longer than 30 minutes due to an emergency situation.

B. Normal hours versus after-hours: Normal working hours refer to the period 08h00 to 17h00 on Mondays to Fridays; the period 08h00 to 13h00 on Saturdays; as well as all other periods voluntarily scheduled (even when for the convenience of the patient) by a medical practitioner for the rendering of services. All other periods are regarded as after-hours. Public holidays are not regarded as normal working days and involuntarily scheduled work performed on such days is regarded as after-hours work. Services are scheduled involuntarily for a specific time, if for medical reasons the doctor should not render the service at an earlier or later opportunity.

- C. The fee that may be charged in respect of the rendering of a service not listed in this tariff of fees shall be based on the fee in respect of a comparable service.
- D. Unless timely steps are taken to cancel an appointment for a consultation the relevant consultation fee shall be payable by the workman. In the case of a general practitioner "timely" shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall however, be considered on merit and, if circumstances warrant, no fee shall be charged.
- E. The appropriate fee may be charged for all pre-operative consultations with the exception of a routine pre-operative visit at the hospital.
- F. Where applicable fees for administering injections and/or infusions may only be charged when done by the practitioner himself or herself.
- G. Unless otherwise stated, the fee in respect of an operation or procedure shall include normal after-care for a period not exceeding four months. Where the surgeon does not himself or herself complete the after-care, it shall be his or her responsibility to arrange for this to be done without extra charge: Provided that in the case of post-operative treatment of a prolonged or specialised nature, such fee as may be agreed upon between the surgeon and the Commissioner, may be charged. Where a workman met with an accident and received medical treatment away from home and afterwards have to be transferred to his or her hometown treatment may be taken over by another doctor who will be entitled to further payment.
- H. Items involving removal of lesions include follow-up treatment for four months.
- I. Fees for all pathological investigations performed by members of other disciplines (where permissible): See section for Pathology. (Refer to M0097).
- J. In exceptional cases where the tariff fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. Conversely, if the fee is disproportionately high in relation to the actual services rendered, a lower fee than that in the tariff should be charged.
- K. Save in exceptional cases the services of a specialist shall be available only on the recommendation of the attending general

practitioner. Medical practitioners referring cases to other medical practitioners shall, if known to them, indicate in the reference that the patient was injured in an accident and this shall also apply in respect of specimens sent to pathologists.

- L. If a procedure is performed at the time of an initial or subsequent consultation, the fee for the consultation plus the fee for the procedure is charged.
- M. ~~If such a procedure, planned at an initial or subsequent consultation, is performed at another time, the fee for the procedure only is charged.~~
- N. (i) No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation performed at the time the condition is brought to the doctor's attention.
- (ii) Where a fee for any service is prescribed herein, the medical practitioner shall not be entitled to payment calculated on a basis of visits or examinations made where such calculation would result in the prescribed fee being exceeded.
- (iii) The number of consultations must be in direct relation to the seriousness of the injury and should more than 20 consultations be necessary, the Commissioner must be furnished with a detailed motivation.
- (iv) A single fee for a consultation/visit shall be paid to a medical practitioner who gives a single treatment to an injured workman who thereafter passes to the permanent care of another medical practitioner, not being a partner or assistant of the first. The responsibility for furnishing the first medical report in such a case ordinarily rests with the second practitioner.
- O. (i) A workman should be hospitalised only if and for such a period that his or her condition justifies full-time medical aid.
- (ii) Occupational therapy/Physiotherapy. The same principles set out in modifier 0077 will apply when a workman is referred to a therapist.
- (iii) In the case of costly or prolonged medical services or procedures the medical practitioner shall first ascertain in writing from the Commissioner for what amount the Commissioner will accept responsibility in respect of such treatment.
- P. **Travelling fees**

- (i) Where, in cases of emergency, a practitioner was called out from his or her residence or rooms to a patient's home or the hospital, travelling fees can be charged according to Section IV if he or she had to travel more than 16 kilometres in total.
- (ii) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided *pro rata* between the relevant patients.
- (iii) A practitioner is not entitled to charge for any travelling expenses or travelling time to his or her rooms.
- (iv) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled).
- (v) Where a practitioner conducts an itinerant practice, he or she is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled).
- (vi) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect.

INTENSIVE CARE

RULES GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

- Q. Items 1204 to 1210 exclude the following:
- (i) Anaesthetic and/or surgical fees for any condition or procedure.
 - (ii) Cost of any drugs and/or materials.
 - (iii) Any other cost which may be incurred before, during or after the consultation and/or the therapy.
 - (iv) Blood gases and chemistry tests, including the arterial puncture to obtain the specimen.
 - (v) Procedural items 1212 to 1219.
- R. Units for items 1208, 1209 and 1210 include resuscitation (i.e item 1211).

- S. Units for items 1212, 1213 and 1214 include the following:
- (i) Measurement of minute volume, vital capacity, time and vital capacity studies.
 - (ii) Testing and connecting the machine.
 - (iii) Putting patient on machine: setting machine, synchronising patient with machine.
 - (iv) Instruction to nursing staff.
 - (v) All subsequent visits within 24 hours.
- T. Ventilation (items 1212 to 1214) does not form a part of normal post-operative care.

GENERAL MODIFIERS GOVERNING THE TARIFF

- 0001 An additional premium of 50% of the fee for the particular service shall apply to after-hours pathology services. For after-hours radiological services the additional premium shall be 50% of the fee for the particular service (paragraph 19.12 excluded) with a maximum premium of:
- | | |
|----------------------|---------|
| Radiology: | R380,00 |
| Radiotherapy: | R410,00 |
| Ultrasound: | R350,00 |
| Computed Tomography: | R350,00 |
- 0002 Item 38/0101 is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him or her.
- 0003 The fee in respect of more than one abdominal operation or procedure performed through the same incision shall be 100% of the fee in respect of the major operation or procedure plus 50% of the fee for the second operation or procedure, plus 25% of the fee for the third operation or procedure, with a maximum of two such additional operations or procedures.
- 0005 The fee in respect of more than one operation or procedure performed under the same anaesthetic, but not through the same incision, shall be the fee in respect of the major operation or procedure plus half the fee in respect of each additional operation or procedure with a maximum of four additional operations or procedures. This rule shall not apply where four or more entirely unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee for his or her

operation.

Note: In the case of multiple fractures and/or dislocations the same values shall prevail.

- 0006 A 25% reduction in the fee for a subsequent operation for the same condition within one month shall be applicable if the operations are performed by the same surgeon (an operation subsequent to a diagnostic procedure is excluded). After a period of one month the full fee is applicable.
- 0007 Use of any type of own equipment ONLY when appropriate equipment is not provided by hospital - R54,00, irrespective of the number of items of equipment provided.
- 0009 The fee for an assistant practitioner is 15% of the fee for the specialist surgeon, with a minimum of R86,40. Where a procedure requires a specialist assistant, the fee is $33\frac{1}{3}\%$ of the fee for the specialist surgeon.
- 0010 A fee for a local anaesthetic administered by the operator may only be charged for an operation or a procedure having a value greater than R108,00. The fee shall be calculated according to the basic anaesthetic fees for the specific operations. Anaesthetic time may not be charged for, but the minimum fee as per modifier 0036 shall be applicable in such a case. Not applicable to radiological procedures (such as angiography and myelography). No fee may be levied for topical application of local anaesthetic.
- 0011 The additional fee to all members of the surgical team for after-hour emergency surgery shall be R43,20 for each half hour or part thereof of the operation time. Normal hour fees are to be charged in respect of patients on scheduled lists.
- 0013 When an endoscopic examination is done before or after an operation by the operating surgeon or the attending anaesthetist, only 50% of the fee for the endoscopic examination may be charged.
- If a third person is called to do an endoscopic examination, the full fee may be charged.
- 0014 Where an operation is performed which has been previously performed by another surgeon, e.g a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under General Rule J, except where already specified in the tariff.

INJECTIONS AND INFUSIONS

MODIFIERS GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

- 0015 Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after an operation, no extra fees will be charged as this is included in the global operative fees. Should the practitioner doing the operation prefer to ask another practitioner to perform post-operative intravenous infusions, then the practitioner himself or herself (and not the patient) is responsible for remunerating such practitioner for the infusions.
- 0017 In the case of intravenous, intramuscular or subcutaneous injections given by the doctor himself or herself in respect of patients who attend the consulting rooms, administering a first injection forms part of the consultation and all subsequent injections for the same condition should be charged at 50% of the appropriate consultation fee in accordance with the general practice schedule.
- 0018 In the case of a course of desensitization injections, a full consultation may be charged for administering each injection in accordance with the general practice schedule.

MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETIC FOR ALL THE PROCEDURES AND OPERATIONS INCLUDED IN THIS TARIFF

- 0021 Anaesthetic fees are determined by obtaining the sum of the BASIC ANAESTHETIC UNITS AND THE TIME UNITS. IN CASES OF OPERATIVE PROCEDURES ON THE MUSCULO-SKELETAL SYSTEM, OPEN FRACTURES AND OPEN REDUCTION OF FRACTURES OR DISLOCATIONS ADD FEES AS LAID DOWN BY MODIFIERS 5441 TO 5448.
- 0023 The basic unit value is laid down in the Tariff. This basic unit value is a reflection of the additional anaesthetic risk, the technical skill required of the anaesthetist and the scope of the surgical procedure, but excludes the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic unit value in all cases on the following basis:

Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic at R26,00 per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one hour the fee shall, after one

- hour be R51,90 per 15 minute period or part thereof.
- 0024 If a pre-operative assessment of a patient by the anaesthetist, is not followed by an operation it will be regarded as consultation at hospital or nursing home.
- 0025 Anaesthetic time is calculated from the time the anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthetist is no longer required to give his or her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for anaesthetic time. The anaesthetist must show in his or her account the exact anaesthetic time and the supervision time spent with the patient.
- 0027 Where more than one operation is performed under the same anaesthetic, the basic value will be that of the major operation with the highest unit value.
- 0029 When rendered necessary by the scope of the anaesthetic, an assistant anaesthetist may be employed. The remuneration of the assistant anaesthetist shall be calculated on the same basis as in the case where a general practitioner administers the anaesthetic.
- 0031 Treatment with intravenous drips and transfusions (i.e re-identification of delivered and certified compatible blood with the patient and actual administering of blood) is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered during actual theatre or operating time. (For these services at other times see items 0206 and 0207).
- 0032 Anaesthesia administered to patients in the prone position shall have a minimum basic anaesthetic fee of R69,20.
- 0033 When an anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated on full anaesthetic rate, subject to the provisions of modifier 0035.
- 0034 All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall

have a minimum basic anaesthetic fee of R69,20.

- 0035 The minimum fee for any anaesthetic procedure administered by a specialist anaesthetist shall be R121,10.
- 0036 Fees for an anaesthetic administered by a general practitioner shall be two thirds of the units applicable to the specialist anaesthetist provided that no anaesthetic shall have a total value of less than R103,80. The monetary value of the unit is the same for both a specialist anaesthetist and a general practitioner anaesthetist.

Note: Modifying units may be added to the basic unit value according to the following table:

- 0037 Utilisation of total body hypothermia: Add R51,90.
- 0038 For procedures performed by Lithotripsy: Add R34,60.
- 0039 Deliberate control of the blood pressure: All cases up to one hour add R51,90, thereafter add R17,30 per $\frac{1}{4}$ hour or part thereof.
- 0041 Utilisation of hyperbaric pressurisation: Add R51,90.
- 0042 Utilisation of extracorporeal circulation: Add R51,90.

Modifiers 5441 to 5448. General practitioners refer to M0036.

Modification of the anaesthetic fee in cases of operative procedures on the musculo-skeletal system, open fractures and open reduction of fractures and dislocations is governed by adding units indicated by modifiers 5441 to 5448. (The letter "M" is annotated next to the number of units of the appropriate items, for facilitating identification of the relevant items).

- 5441 In all cases of open fractures, open reduction of fractures and dislocations: Add R17,30 except where the procedure refers to the bones named in Modifiers 5442 to 5448.
- 5442 Shoulder, scapula, clavicle, humerus, elbow joint, upper $\frac{1}{3}$ tibia, knee joint, patella, mandible and temporo-madibular joint: Add R34,60.
- 5443 Maxillary and orbital bones: Add R51,90.
- 5444 Shaft of femur: Add R69,20

- 5445 Spine (except coccyx), pelvis, hip, neck of femur:
Add R86,50.
- 5448 Sternum and/or ribs and procedures which involve an
intra-thoracic approach: Add R138,40.

POST-OPERATIVE ALLEVIATION OF PAIN

- 0045 An anaesthetist may charge for post-operative pain relief according to item 0109, provided it is indicated or specific management of pain by specialised techniques. A routine post-operative visit is included in the anaesthetic fee. Where the anaesthetic is administered by another anaesthetist, post-operative alleviation of pain shall be charged according to the procedure for instituting the therapy.

MUSCULOSKELETAL SYSTEM

MODIFIERS GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

- 0046 Where in the treatment of a specific fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting on the same bone, the fee for the initial treatment of that fracture or dislocation shall be reduced by 50%. After one month, a full fee as for the initial treatment, is applicable.
- 0047 A fracture NOT requiring reduction shall be charged on a fee for service basis PROVIDED that the cumulative amount does NOT exceed the charges for a reduction.
- 0048 Where in the treatment of a fracture or dislocation an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be R97,20 (including after-care).
- 0049 Except where otherwise specified, in cases of compound fractures, R277,20 (specialists) and R183,60 (general practitioners) are to be added to the fees for the fractures, including debridement.
- 0050 In cases of a compound fracture where a debridement is followed by internal fixation (excluding fixation with Kirschner wires and excluding fractures of hands and feet), the full amount according to either modifier 0049 or 0051 may be added to the fee for the procedure involved, plus half of the amount

according to the second modifier (either 0049 or 0051 as applicable).

- 0051 Except where otherwise specified in cases of fractures requiring open reduction, internal fixation, external skeletal fixation or bone grafting: Add R277,20 (specialists) and R183,60 (general practitioners).
- 0053 Fractures requiring percutaneous internal fixation: (Insertion and removal of fixatives (wires) in respect of fingers and toes included): Add R115,20 (specialists) and R75,60 (general practitioners).
- 0055 Dislocation requiring open reduction: Fee for the specific joint plus R277,20 (specialists) and R183,60 (general practitioners).
- 0057 In multiple procedures on feet, fees for the first foot are calculated according to modifier 0005. Calculate fees for the second foot in the same way, reduce the total to 50% and add to the total for the first foot.
- 0058 Revision operation for total joint replacement and immediate resubstitution (infected or non-infected): Per fee for total joint replacement + 100%.

MODIFIER GOVERNING COMBINED PROCEDURES ON THE SPINE

- 0061 In cases of combined procedures on the spine, both the orthopaedic surgeon and the neurosurgeon are entitled to the full fee for the relevant part of the operation performed.

MODIFIER GOVERNING THE SUBSECTION REPLANTATION OPERATION

- 0063 Where two specialists work together on a replantation procedure, each shall be entitled to two thirds of the fee for the procedure.
- 0064 Where the replantation is unsuccessful, no further surgical fee is payable for amputation of the non-viable parts.

MODIFIER GOVERNING THE SECTION LARYNX

- 0067 Micro-surgery of the larynx: Add 25% to the fee of the operation performed. For other operations requiring the use of an operation microscope, the fee shall include the use of the microscope, except where otherwise specified elsewhere in the Tariff.
- 0068 Fees for multiple intra-nasal procedures should be charged for separately subject to modifier 0005 with a maximum of three procedures. Applicable to the

following items: 1020, 1022, 1024, 1025, 1029, 1035, 1039, 1041, 1043, 1067, 1069, 1073 and 1079.

- 0069 When endoscopic instruments are used during intranasal surgery: Add 10% of the fee of the procedure performed. Only applicable to items 1025, 1027 and 1035.

MODIFIER GOVERNING THE SUBSECTION INTENSIVE
RESPIRATORY THERAPY

- 0070 A reduction of 33 $\frac{1}{3}$ % of the fee will apply to the pulmonary function tests as indicated in paragraph 4.6.2 where hospital equipment is used.
- 0071 Where work is initiated after hours, over a weekend or on public holidays, a further R43,20 may be charged.

MODIFIER GOVERNING GASTROENTEROLOGY PROCEDURES

- 0074 A reduction of 33 $\frac{1}{3}$ (one third) of the fee will apply to all fibre optic procedures performed by means of hospital equipment, except in cases where a doctor hires equipment from a hospital.

MODIFIER GOVERNING FEES FOR FIBRE OPTIC PROCEDURES

- 0075 The fee plus R75,60 will apply where fibre optic procedures are performed in rooms with own equipment.

MODIFIER GOVERNING THE SECTION OPEN HART SURGERY

- 0076 The fee for the first specialist assistant is 33 $\frac{1}{3}$ % and that for the second specialist assistant 15% of the operation fee (excluding fee for additional services, e.g by physicians, radiologists, physiotherapists, technicians, etc).

SPECIFIC MODIFIER: SECTION ON PHYSICAL TREATMENT

- 0077 (a) When two separate areas are treated simultaneously for totally different conditions, such treatment shall be regarded as two treatments for which separate fees may be charged.
- (b) The number of treatments to a patient for which the Commissioner shall accept responsibility is limited to 20. If further treatments are necessary payment therefor must be arranged with the Commissioner.

MODIFIER GOVERNING THE SECTION MEDICAL PSYCHOTHERAPY

- 0079 When a first consultation proceeds into, or is immediately followed by a medical psychotherapeutic

procedure, fees for the procedure are calculated at R43,20 per 20 minutes.

MODIFIERS GOVERNING THE SECTION DIAGNOSTIC RADIOLOGY

- 0080 Multiple examinations: Full fee.
- 0081 Repeat examinations: No reduction.
- 0082 Means that this item is complementary to a preceding item and is therefore not subject to reduction.
- 0083 When a Radiologist makes use of hospital equipment, only 66 $\frac{2}{3}$ % of the fee for the examination is chargeable.
- 0084 In the case of radiological items where films are used practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit.

SPECIFIC MODIFIER GOVERNING VASCULAR STUDIES

- 0086 Vascular groups: 'Film series' and 'Introduction of Contrast Media' are complementary and together constitute a single examination: Neither fee is therefore subjected to reduction (Modifier 0080).

SPECIFIC MODIFIER GOVERNING FILM SERIES

- 0087 Per additional series of item 3531 to item 3551: 50% of the fees.

MODIFIER GOVERNING CORONARY CINE ANGIOGRAPHY

- 0088 Multiple selective catheterisation: For each additional selective catheterisation after the first selective catheterisation, reduce the fee with 25%.

MODIFIER GOVERNING COMPUTER TOMOGRAPHY

- 0089 The number of sections of each examination and the matrix number must be specified. A full series of section would be 8 or more for brain examinations, 12 or more for chest examinations, and 16 or more for abdomen examinations. Fees for examination on a matrix number of less than 250 shall be reduced by 50%.

MODIFIERS GOVERNING ULTRASONIC INVESTIGATIONS

See modifiers 0152-0160 under paragraph 19.11.

MODIFIERS GOVERNING THE SECTION RADIOTHERAPY

- 0093 The fees for radiotherapy shall apply only where a specialist in radiotherapy uses his or her own apparatus.
- 0094 Where a specialist in radiotherapy uses hospital equipment, only 66 $\frac{2}{3}$ % of the fee for the therapeutic procedure is chargeable.

MODIFIERS GOVERNING THE SECTION PATHOLOGY

- 0097 Where items under Pathology and Anatomical Pathology fall within the province of other specialists or general practitioners, the fee is to be charged at two thirds of the pathologist's fee.
- 0099 For tests performed on a stat basis, an additional premium of 50% of the fee for the particular pathology service shall apply, with the following provisos:
- * Stat test requesting may only be done by the referring practitioner and not by the pathologist.
 - * Specimens must be collected on a stat basis where applicable.
 - * Test must be performed on a stat basis.
 - * Documentation (or a copy thereof) relating to the request of the referring practitioner must be retained.
 - * This modifier will only apply during normal working hours and will never be used in combination with item 4547.

MODIFIERS GOVERNING FEES FOR AN ANAESTHETIC OPERATION
INTRA-AORTIC BALLOON PUMP (CARDIOVASCULAR SYSTEM)

- 0100 Where an anaesthetist would be responsible for operating an intra-aortic balloon pump, a fee of R270,00 is applicable.

COST OF MATERIAL

0201 (a) Cost of material: This item provides for a charge for material and special medicine used in treatment. Material to be charged for at cost price plus 35%. Charges for medicine used in treatment not to exceed the retail Ethical Price List.

Hoffmann Apparatus: An amount equivalent to 20% of the purchase price of the apparatus may be charged for each patient where such apparatus is used.

(b) In case of minor injuries requiring additional material (e.g suturing material) payment shall be considered provided the claim is motivated.

(c) **Note:** Medicine, bandages and other essential material for home-use by the patient must be obtained from a chemist on prescription or, if a chemist is not readily available, the practitioner may supply it from his or her own stock provided a relevant prescription is attached to his or her account. Charges for medicine used in treatment not to exceed the retail Ethical Price List.

0202 Setting of sterile tray: A fee of R36,00 may be charged for the setting of a sterile tray - cost of stitching material if applicable, to be charged for additionally under 0201.

3. MUSCULOSKELETAL SYSTEM

Modifiers

- M0046 Where in the treatment of a fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting, the fee for the initial treatment of the fracture or dislocation shall be reduced by 50%. The full fee for the open reduction, internal fixation, external skeletal fixation or bone grafting may be charged. After one month, a full fee as for the initial treatment, is applicable.
- M0047 A fracture NOT requiring reduction shall be charged on a fee for service basis PROVIDED that the cumulative amount does NOT exceed the charges for a reduction.
- M0048 Where in the treatment of a fracture or dislocation an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be R97,20.
- M0049 **Except where otherwise specified**, in cases of compound fractures, R277,20 (specialists) and R183,60 (general practitioners) are to be added to the fees for the fractures, including debridement.
- M0050 In cases of a compound fracture where a debridement is followed by internal fixation (excluding fixation with Kirschner wires and excluding fractures of

hands and feet) the full amount according to either modifier 0049 or 0051 may be added to the fee for the procedure involved, plus half of the amount according to the second modifier (either 0049 or 0051 as applicable).

- M0051 **Except where otherwise specified**, in cases of fractures requiring open reduction, internal fixation, external skeletal fixation or bone grafting: Add R277,20 (specialists) and R183,60 (general practitioners).
- M0053 Fractures requiring percutaneous internal fixation [insertion and removal of fixatives (wires) in respect of fingers and toes included]: Add R115,20 (specialists) and R75,60 (general practitioners).
- M0055 Dislocation requiring open reduction: fee for the specific joint plus R277,20 (specialists) and R183,60 (general practitioners).
- M0057 In multiple procedures on feet, fees for the first foot are calculated according to modifier 0005. Calculate fees for the second foot in the same way, reduce the total to 50% and add to the total for the first foot.
- M0058 Revision operation for total joint replacement and immediate resubstitution (infected or non-infected): per fee for total joint replacement plus 100%.

19. RADIOLOGY

Diagnostic procedures

MODIFIERS GOVERNING THIS SECTION OF THE TARIFF

- M 0001 For after-hours radiological services the additional premium shall be 50% of the fee for the particular service (section 19.12 excluded) with a maximum premium of:
- | | |
|----------------------|---------|
| Radiology: | R380,00 |
| Radiotherapy: | R410,00 |
| Ultrasound: | R350,00 |
| Computed Tomography: | R350,00 |
- M 0002 Item 38/0101 is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him or her.
- M 0080 Multiple examinations: Full fees.
- M 0081 Repeat examinations: No reduction.
- M 0082 "+" Means that this item is complementary to a preceding item and is therefore not subject to reduction.
- M 0083 When a radiologist makes use of hospital equipment, only 66,67% (%) of the fee for the examination is chargeable.

Notes in respect of fees payable when X-rays are taken by general practitioners:

(If the services of a radiologist are normally available, it is expected that they should be utilised. Should circumstances be unfavourable for obtaining such services at the time of the first consultation, the general practitioner may take the initial X-ray himself or herself provided, he or she submits a certificate to the effect that it was in the best interest of the workman for him or her to have taken the plates. Subsequent X-ray plates of the same injury, however, must be taken by a radiologist who has to submit the relevant reports in the normal manner.)

1. When a general practitioner takes X-ray plates with his or her own equipment, if the services of a specialist radiologist are not available, he or she may claim at the prescribed fee.
2. (i) If a general practitioner orders an X-ray examination at a state hospital where the service of a specialist radiologist is available, it is expected that the radiologist shall read the photos for which he or she may claim at one-third of the prescribed fee.
- (ii) If the radiographer of the hospital is not available and the general practitioner has to take the X-ray plates himself or herself, he or she may claim at 50% of the prescribed fee for that service. In that case, however, he or she should get confirmation of his or her X-ray findings in a report from the radiologist as soon as

possible. The radiologist may then claim at one-third of the prescribed fee for such service.

3. If a general practitioner orders an X-ray examination at a state hospital where there are no specialist radiological services available, he or she should not be paid for reading the plates as such a service is considered as an integral part of routine diagnosis, but if he or she is requested by the Commissioner to submit a written report on the case, he or she may claim at two-thirds of the prescribed fee in respect thereof.
4. If a general practitioner has to take and read X-ray plates at a state hospital where the services of a radiographer and a specialist radiologist are not available he or she may claim 50% of the prescribed fee for such service.

M 0084 In the case of radiological items where films are used practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit.

19.8 Vascular studies

MODIFIER GOVERNING VASCULAR STUDIES

M 0086 Vascular groups: "Film series" and "Introduction of Contrast

Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier 0080.

19.8.1 *Film Series*

MODIFIER GOVERNING FILM SERIES

M 0087 Per additional series of Item 3531 to Item 3547: 50% of the fees,
In the case of an aortogram for peripheral vascular disease the lower limbs are not added as well.

In the case of selective catheterisation of a branch of the aorta, the catheterisation and examination of the aorta are not added.

3575 "Cut-downs" for venography: Add.....	+62,90	+41,80	-
19.9 Tomography and cinematography			
3577 Tomography (conventional except where otherwise specified): Add 100% provided that if it is more than one a dimension fee shall be charged for the additional investigation at 50% of the tariff with a maximum of two additional investigations.			
3579 Tomography (multi-dimensional in motion): Add 150%.			
3581 Cinematography: For first series: Add 100%.			
3583 Cinematography: For each series after the first: Add 80% of the primary fee.			

19.9.1 Computed Tomography

MODIFIER GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

M 0089 The number of section of each examination and the matrix number must be specified. A full series of sections would be 8 or more for brain examinations, 12 or more for chest examinations and 16 or more for abdomen examinations. Fees for examination on a matrix number of less than 250 shall be reduced by 50%.

3649 Magnetic resonance imaging of a specific single anatomical region performed with the applicable radio frequency coil including T1 and T2 weighted images.....	1 900,00	1 265,40	-
Specific anatomical regions set for MR-investigations: Head, including brain, cranio cervical junction and pituitary fossa; cervical spine; thoracic spine; lumbar spine; abdomen; pelvis; orbit; joints, including temporo-mandibular joints; ear; limbs; larynx; testicles; neck, including thoracic inlet....			

When a MRI with contrast is done, the second MRI will be subjected to modifier 0005 - i.e. 50% of the tariff.

20. RADIOTHERAPY

MODIFIERS GOVERNING THIS SECTION OF THE TARIFF

- M 0092 If both tracer test and therapeutic procedures are conducted, half of the fee for the tracer test plus the fee for the therapeutic procedure shall be charged.
- M 0093 The fees for radiotherapy shall apply only where a specialist in radiotherapy uses his or her own apparatus.
- M 0094 Where a specialist in radiotherapy uses hospital equipment, only 66,67% (2/3) of the fee for the therapeutic procedure is chargeable.

20.1 Superficial therapy

21. PATHOLOGY

MODIFIER GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

- M 0097** Where items under Pathology and Anatomical Pathology fall within the province of other Specialists or General Practitioners, then the fee is to be charged at two-thirds of the pathologist's fee.
- M 0099** For tests performed on a stat basis, an additional premium of 50% of the fee for the particular pathology service shall apply, with the following provisos:
- * Stat test requesting may only be done by the referring practitioner and not by the pathologist.
 - * Specimens must be collected on a stat basis where applicable.
 - * Test must be performed on a stat basis.
 - * Documentation (or a copy thereof) relating to the request of the referring practitioner must be retained.
 - * This modifier will only apply during normal working hours and will never be used in combination with item 4547.
- * **Notes:** For fees for Histology and Cytology refer to items 4561-4593 under Section 22: Anatomical Pathology.

IV. TRAVELLING EXPENSES

REFER TO GENERAL RULE P

When a doctor has to travel more than 16 kilometres in total to visit a patient, the fees shall be calculated as follows:

Consultation, visit or surgical fee: Plus

- 5001 Cost of public transport and travelling time or costs referred to in item 5003.
- 5003 R0,90 per km for each kilometre in excess of 16 kilometres in total travelled in own car: 19 km in total = 3xR0,90 cent = R2,70 (no travelling time).
Traveling time is only applicable when public transport is used.
- 5005 Specialist R64,80 per hour or part thereof.
- 5007 General Practitioner: R43,20 per hour or part thereof.
- 5009 After hours: Specialist: R97,20 per hour or part thereof.
- 5011 After hours: General Practitioners: R64,80 per hour or part thereof.
- 5013 Travelling fees are not payable to medical practitioners when they travel from a distance to assist at an operation on cases referred to surgeons by them.
- 5015 Travelling expenses may be charged from the medical practitioner's residence for calls received at night or during weekends in cases where travelling fees are allowed. (For distances of 8 kilometres or more from starting point.)
