(b) if the time and cost of considering a large number of bids is disproportionate to the value of the procurement and the estimated value of the procurement does not exceed the prescribed threshold; or
(c) by limiting the participation in a particular procurement to those suppliers included on pre-approved supplier eligibility lists drawn up and maintained by the public entity in the prescribed manner so as to ensure that suppliers of specialised goods and services have and maintain the necessary technical and financial capability to provide those goods or services.

(3) Where the estimated value of the contract is within the prescribed threshold, the public entity -

(a) may draw up a shortlist on the basis of its own knowledge and information; and

(7) Where the choice of services is made in accordance with section 27(1) (b)(i), (iii) or (iv), the financial proposals of all suppliers whose technical proposals attained the required minimum pass mark are read out to the bidders in accordance with the prescribed procedure.

(8) Where the choice of services is made in accordance with section 27 (1) (b)(ii) only the financial proposal of the supplier whose technical proposal achieved the highest ranking is evaluated.

(9) The contract may be negotiated with the winning supplier with regard to the terms of the request for proposals, the scope of the proposed services, deliverables, progress reports, facilities to be provided by Government or, subject to subsection (10), the financial proposal.

(10) Where the price has been a factor, the fee for services is not subject to negotiation and only the cost of reimbursable items may be negotiated in such manner as may be prescribed.
